Date: January 2025

Executive Summary

This proposal outlines the complete website development delivered for Workers Rights Watch, along with ongoing maintenance and SEO services to ensure your online presence continues to grow and serve your mission effectively.

What Has Been Delivered

A comprehensive, professional website has been built from the ground up for Workers Rights Watch, featuring 10 fully functional pages, modern design, interactive features, and integration with multiple systems. The website positions Workers Rights Watch as a leading NGO in Kenya and provides a powerful platform to reach supporters, partners, and beneficiaries worldwide.

Value Proposition

Your new website provides:

- **Global Reach:** Anyone, anywhere can learn about and support your work
- **24/7 Availability:** Information and resources accessible anytime
- **Credibility:** Professional online presence builds trust with partners and donors
- **Efficiency:** Automated systems for applications, contact forms, and donations
- **Growth:** Scalable platform that grows with your organization
- **Impact:** Showcase your achievements to 50,000+ workers helped

Website Features & Pages Overview

10 Complete Pages Delivered

1. Home Page - Your Digital Front Door

- Animated hero section with image carousel showcasing your work
- Real-time Twitter/X feed displaying your latest updates
- Impact statistics with animated counters (50,000+ workers, 1,500+ cases, etc.)
- Interactive photo gallery preview
- Scrolling partner logos (18+ organizations)
- Resources preview (articles, reports, videos)
- Full mobile responsive design

2. About Us Page - Your Story

- Vision and Mission statements in elegant card layouts
- Comprehensive "What We Do" section with imagery
- 5 clearly defined objectives
- 5 core values displayed with icons
- Your approach to worker empowerment
- Professional animations and transitions

3. Our Team Page - Meet Your People

- Leadership team profiles with full bios
- Board members section
- Clickable profiles that open detailed popup modals
- Contact information and social media links for each member
- "Who We Work With" section (Assemblies, Community Leaders, Legal Advisors, Partners)

- Professional headshots and descriptions

4. Our Programs Page - What You Do

- Detailed program descriptions
- Labor Rights Advocacy
- Gender Equality initiatives
- Health & Safety programs
- Training & Capacity Building
- Legal Aid Services
- Impact metrics for each program

5. Our Work Page - How You Do It

- Project highlights with photos
- Case studies showing real impact
- Partnership project showcases
- Before/after scenarios
- Beneficiary testimonials

6. Resources Page - Your Knowledge Hub

Five interactive tabs:

- **Articles:** Featured stories with full-text popups
- **Reports:** 4 downloadable PDF reports (949KB - 3.8MB)
- **Videos:** Embedded video player with thumbnails
- **Training Manuals:** Downloadable educational materials
- **Photo Gallery:** 12+ photos with full-screen viewer, navigation arrows, and location tags

Advanced Features:

- Global search across all resources
- Category filtering with clickable badges
- Sort by date (latest/oldest)
- File size and type display
- One-click downloads
- View online option

7. Activities Page - Recent Events

- Photo galleries from recent events
- Activity descriptions and impact
- Upcoming events calendar
- Past events archive
- Participant counts and outcomes

8. Careers Page - Talent Recruitment

Two Main Sections:

- **Job Opportunities:** Post and manage job listings with full details
- **Volunteer Applications:** Accept volunteer applications

Features:

- Job cards showing title, location, type, salary, deadline
- Full job description popups
- Online application forms with validation
- CV/Resume upload (drag & drop)
- Cover letter collection
- Email notifications to your team
- Automatic form validation

9. Contact Us Page - Get In Touch

- Multi-field contact form with subject categories
- Email integration (sends to your email)
- Office location and contact details
- Social media links
- Quick links to important pages
- Form validation and success confirmation

10. Donate Page - Support Your Mission

Multi-Currency Donation System (Under Construction - 95% Complete)

Features Built:

- Automatic country/currency detection
- 10 currency options (USD, KES, EUR, GBP, NGN, ZAR, CAD, AUD, INR, JPY)
- Currency converter

- Pre-set amounts + custom amount option
- Three payment methods:
 - **Credit/Debit Cards** (Stripe integration ready)
 - **M-Pesa** (Kenya - API integration ready)
 - **PayPal** (International - integration ready)
- Secure payment processing
- Donor information collection
- Email receipt system

What Remains: Final connection of payment gateway accounts (requires your business accounts)

Technical Infrastructure

Technology Stack (Simplified)

Your website is built with modern, industry-standard technology that ensures:

Next.js 15 - The latest web development framework

- Used by major companies (Nike, Netflix, TikTok)
- Extremely fast loading times
- Excellent for SEO (Google ranking)
- Secure and reliable

TypeScript - Professional code quality

- Reduces errors and bugs
- Easier to maintain and update
- Industry best practice

Responsive Design - Works everywhere

- Perfect on phones, tablets, laptops, desktops
- Touch-friendly on mobile devices
- Adapts to any screen size automatically

Integrations Completed:

-  Email system (Nodemailer/SendGrid ready)
-  Twitter/X API (live feed)

- ☒ File uploads (CV/Resume handling)
- ☒ Payment gateways (Stripe, M-Pesa, PayPal - ready to activate)
- ☒ Form handling and validation
- ☒ Image optimization and galleries
- ☒ Dark/Light theme system

Security Features:

- Form spam protection
- Secure file uploads
- Data validation
- SSL certificate ready (HTTPS)
- Protected API endpoints
- Secure payment processing

Performance Optimization:

- Fast loading (< 3 seconds)
- Image compression and lazy loading
- Code optimization
- Efficient caching
- Mobile data friendly

Pricing Structure

Development Fee (One-Time Payment)

Total Cost: KES 180,000

(Range: KES 150,000 - 200,000 based on complexity and features)

What This Includes:

1. Website Development (10 Pages)

- Complete website design and development
- Custom layouts for each page
- All interactive features
- Form systems (contact, applications)

- Image galleries and document management
- 40-60 hours of development work

2. Design & Branding

- Custom color scheme aligned with your brand
- Professional typography
- Custom icons and graphics
- Responsive layouts for all devices
- Dark/Light theme implementation
- 15-20 hours of design work

3. Payment System Integration

- Stripe integration (card payments)
- M-Pesa integration (Kenya mobile payments)
- PayPal integration (international)
- Multi-currency support (10 currencies)
- Automatic currency conversion
- 10-15 hours of integration work

4. Email System Setup

- Contact form emails
- Application notification emails
- Donation confirmation emails (when active)
- Email template design
- 5-8 hours of configuration

5. Social Media Integration

- Live Twitter/X feed on homepage
- Social sharing buttons
- Social media link management
- 3-5 hours of integration

6. Content Management

- 30+ images uploaded and optimized
- 4 PDF reports uploaded

- Team profiles (3 leadership, 3 board)
- All text content input
- SEO optimization for all pages
- 10-15 hours of content work

7. Testing & Quality Assurance

- Cross-browser testing (Chrome, Safari, Firefox, Edge)
- Mobile device testing (iOS, Android)
- Form testing and validation
- Link verification
- Performance testing
- 8-10 hours of testing

8. Documentation

- Non-technical user guide (README)
- Business proposal (this document)
- Visual diagrams and flowcharts
- 5-8 hours of documentation

Total Time Investment:

- **Development Hours:** 90-120 hours
- **Rate per Hour:** KES 1,500 - 1,800
- **Standard Project Cost:** KES 150,000 - 200,000
- **Your Cost:** KES 180,000

Kenya Market Context (2025):

- Junior Developer (1-2 years): KES 80,000 - 120,000
- Mid-Level Developer (3-5 years): KES 150,000 - 200,000 ✓ (**Your Website**)
- Senior Developer (5+ years): KES 250,000 - 350,000
- International Agency: KES 500,000 - 1,000,000+

Your website is priced at mid-level professional quality - excellent value for the features delivered.

Monthly Maintenance & SEO Services

Monthly Cost: KES 18,000

(Range: KES 15,000 - 20,000 based on service level)

What's Included Every Month:

Website Maintenance Services

1. Security & Updates (KES 5,000/month value)

- Weekly security monitoring
- Software updates and patches
- SSL certificate management
- Malware scanning and protection
- Backup management (daily backups)
- Security vulnerability checks

- Mobile-friendliness checks
- Internal linking optimization
- Broken link monitoring and fixing

10. Local SEO (KES 2,000/month value)

- Google Business Profile optimization
- Local search optimization for:
 - Nairobi searches
 - Kenya-wide searches
 - NGO directory listings
- Local citation building
- Location-based keyword targeting

11. Monthly Reporting (KES 1,000/month value)

- Detailed monthly report delivered via email
- Traffic statistics and trends
- Keyword ranking improvements
- Recommendations for next month

- Action items and strategy
- Clear, non-technical language
- 30-minute consultation call (optional)

Total Monthly Value: KES 28,000+

Your Cost: KES 18,000/month (35% savings)

Payment Options

Option 1: Monthly Plan (Flexible)

- KES 18,000/month
- Cancel anytime with 30 days notice
- Best for: Testing the service initially

Option 2: Quarterly Plan (5% Discount)

- KES 51,300 every 3 months (save KES 2,700)
- Equivalent to KES 17,100/month
- Best for: Short to medium-term commitment

Option 3: Annual Plan (15% Discount) ★ RECOMMENDED

- KES 183,600/year (save KES 32,400)
- Equivalent to KES 15,300/month
- Best for: Long-term partnership and maximum savings

SEO Strategy & Expected Results

Current Optimization (Already Implemented)

Your website is already SEO-ready with:

-  Proper page titles and meta descriptions
-  Optimized images with alt text
-  Fast loading speeds (under 3 seconds)
-  Mobile-responsive design (Google's #1 ranking factor)

-  Clean URL structure (/about, /team, /donate)
-  Sitemap for search engines
-  Structured data (helps Google understand content)
-  Internal linking strategy
-  HTTPS ready (secure website)

Ongoing SEO Strategy (Monthly Service)

Month 1-2: Foundation

- Google Analytics installation and setup
- Google Search Console verification
- Keyword research and targeting
- Competitor analysis
- Baseline ranking documentation
- Initial optimization implementation

Month 3-4: Growth Phase

- Content optimization based on keyword research
- Meta tag refinement
- Local SEO implementation
- Link building initiation
- Social media integration enhancement
- First ranking improvements visible

Month 5-6: Momentum Building

- Regular content updates
- Keyword ranking monitoring
- Traffic growth analysis
- Conversion optimization
- Partnership and directory listings
- Consistent page 2-3 rankings for key terms

Month 7-12: Maturity & Results

- First page rankings for targeted keywords
- Increased organic traffic (50-200% growth)

- Higher domain authority
- Regular donations from organic search
- Applications from search traffic
- Established online presence

Target Keywords & Expected Rankings

Primary Keywords (Months 1-6):

- "workers rights watch Kenya" → Page 1 (Month 2-3)
- "workers rights organization Nairobi" → Page 1 (Month 3-4)
- "workers rights NGO Kenya" → Page 1-2 (Month 4-5)

Secondary Keywords (Months 6-12):

- "labor rights Kenya" → Page 2-3 (Month 6-8)
- "workers advocacy Kenya" → Page 2-3 (Month 7-9)
- "gender equality workplace Kenya" → Page 2-3 (Month 8-10)
- "workers rights training Kenya" → Page 1-2 (Month 9-12)

Long-Tail Keywords (Months 3-6):

- "how to report workplace harassment Kenya" → Page 1 (Month 3-5)
- "workers legal rights in Kenya" → Page 1-2 (Month 4-6)
- "NGO helping workers in Nairobi" → Page 1 (Month 4-6)

Expected Traffic Growth

Without SEO:

- 50-100 visitors per month (direct traffic, social media)

With Ongoing SEO:

- **Month 3:** 100-150 visitors/month
- **Month 6:** 200-300 visitors/month
- **Month 12:** 500-800 visitors/month
- **Year 2:** 1,000-2,000 visitors/month

ROI on SEO Investment

Monthly Investment: KES 18,000

Potential Returns:

- 1 additional donor per month → KES 10,000 - 50,000+ in donations
- 2-3 qualified job applications per month → Better hiring
- 5-10 new partnership inquiries per year → Increased collaborations
- Increased visibility → Enhanced credibility and brand recognition
- Free organic traffic → Reduces need for paid advertising

Example ROI: If SEO brings just 2 additional donors per month averaging KES 15,000 each:

- Monthly donation increase: KES 30,000
- SEO cost: KES 18,000
- Net gain: KES 12,000/month (67% ROI)
- Annual net gain: KES 144,000

What's Remaining

To Complete Before Full Launch:

1. Payment Gateway Configuration 🕒

Stripe (Credit/Debit Cards)

- You need: Stripe Business Account
- Setup time: 1-2 days
- Documentation: Will provide step-by-step guide
- Testing: 1-2 hours
- Status: Website code ready, just needs account connection

M-Pesa (Kenya Mobile Money)

- You need: Safaricom M-Pesa Business Account (Paybill or Till Number)
- You need: Daraja API credentials
- Setup time: 3-5 business days (Safaricom approval)
- Testing: 2-3 hours
- Status: Website code ready, needs business credentials

PayPal (International)

- You need: PayPal Business Account
- Setup time: 1-2 days
- Testing: 1-2 hours
- Status: Website code ready, needs account connection

My Role: Provide documentation, connect accounts to website, test thoroughly

Your Role: Create/provide business accounts and credentials

Timeline: 1-2 weeks after you provide credentials

2. Email Service Verification (If Not Done) /

- Verify info@workersrightswatch.org is working
- Test contact form submissions
- Test application notifications
- Status: May already be complete

3. Final Testing

- Test all payment flows with real small transactions
- Verify email receipts
- Mobile payment testing
- User acceptance testing
- Status: 2-3 days of testing

Terms & Conditions

Development Fee Payment Terms

Option A: Full Payment (*Recommended*)

- Full payment: KES 180,000
- Due upon: Project completion and your approval
- Benefit: 5% discount = KES 171,000 final cost

Option B: Split Payment

- 50% upfront: KES 90,000 (paid when work begins)
- 50% on completion: KES 90,000 (paid when delivered)

- Total: KES 180,000

Maintenance Contract Terms

Contract Duration:

- Month-to-month: Cancel with 30 days notice
- Quarterly: 3-month commitment, then auto-renews
- Annual: 12-month commitment, then auto-renews (15% discount)

What's Covered:

- Security updates: Unlimited
- Bug fixes: Unlimited
- Technical support: Unlimited email support
- Content updates: Up to 2 hours per month
- Image uploads: Up to 10 images per month
- Additional content work: KES 2,500/hour

Response Times:

- Critical issues (site down): 4-8 hours
- Urgent issues (broken feature): 24 hours
- Normal requests: 48-72 hours
- Scheduled updates: As agreed

Not Covered (Charged Separately):

- Major design changes
- New page creation
- New feature development
- Custom functionality additions
- Third-party integration changes
- Training sessions (beyond initial handoff)

Separate Charges:

- Additional content updates: KES 2,500/hour
- New feature development: KES 3,000-4,000/hour
- Major redesign: Quote provided
- Emergency weekend work: KES 4,000/hour

Domain & Hosting

Domain Name (e.g., workersrightswatch.org):

- Cost: KES 2,000-3,000/year
- Purchased by: You or me (on your behalf)
- Ownership: Fully yours

Website Hosting:

- Recommended: Vercel (excellent for your website type)
- Cost: Free tier (sufficient initially) or KES 2,000-5,000/month (if high traffic)
- Alternative: Other hosts available (DigitalOcean, AWS, etc.)
- Setup: Included in development

SSL Certificate (HTTPS - Security):

- Cost: Free (Let's Encrypt via hosting)
- Renewal: Automatic
- Setup: Included

Total Annual Infrastructure:

- Domain: KES 2,500/year
- Hosting: Free or KES 24,000-60,000/year (if needed)
- Average: KES 2,500 - 30,000/year

Intellectual Property

Website Ownership:

- Full ownership transfers to Workers Rights Watch upon final payment
- All code, design, and content belong to you
- You can move to another developer anytime
- Source code provided upon request

License:

- Open-source libraries used (standard practice)
- Custom code is yours exclusively
- You can modify, distribute, or sell (not recommended for NGO)

Support & Communication

Communication Channels:

- Email: Primary (response within 24-48 hours)
- Phone: For urgent issues
- WhatsApp: Quick questions (business hours)
- Video calls: Monthly check-in (optional)

Business Hours:

- Monday-Friday: 9:00 AM - 6:00 PM EAT
- Weekends: Emergency only
- Holidays: Emergency only

Monthly Check-In:

- Optional 30-minute call/meeting
- Review performance and analytics
- Discuss improvements
- Plan content updates
- Address concerns

Why Invest in Ongoing Maintenance & SEO?

1. Security Threats Are Real

- Websites face 50+ attacks per day on average
- Unpatched websites get hacked
- Hacked websites damage reputation and lose data
- Prevention is cheaper than recovery

2. Technology Changes Constantly

- Software updates release monthly
- Browsers update regularly (Chrome, Safari, Firefox)
- Mobile devices and standards evolve
- Outdated websites break or slow down

3. Content Needs to Stay Fresh

- Donors want current information
- Search engines prefer updated content
- Team changes need to be reflected
- New programs and achievements to showcase

4. SEO is Long-Term Investment

- 68% of online experiences begin with a search engine
- 75% of users never scroll past first page of results
- Organic search traffic is free (vs. paid ads)
- Top rankings = credibility and trust
- Compounds over time (gets better and better)

5. Support When You Need It

- Technical issues arise unexpectedly
- Questions about features or updates
- Guidance on improvements
- Peace of mind knowing help is available

6. Competition is Growing

- More NGOs have professional websites
- Online presence is expected by donors
- First impression matters
- Maintain competitive advantage

Next Steps

Step 1: Review This Proposal

- Read through carefully
- Note any questions or concerns
- Discuss with your team if needed
- Timeline: 3-5 business days

Step 2: Approval & Agreement

- Confirm development fee amount
- Select maintenance plan (monthly/quarterly/annual)
- Sign agreement (simple contract provided)
- Timeline: 1-2 days

Step 3: Payment Processing

- Invoice provided
- Payment via M-Pesa, bank transfer, or check
- Payment confirmation
- Timeline: 1-3 days

Step 4: Payment Gateway Setup

- You create/provide:
 - Stripe business account
 - M-Pesa business credentials
 - PayPal business account
- I connect and configure
- Timeline: 1-2 weeks (depending on approvals)

Step 5: Final Testing

- Test all payment methods
- Verify email flows
- User acceptance testing
- Fix any final issues
- Timeline: 2-3 days

Step 6: Website Launch! 🚀

- Domain connection
- SSL activation
- Final checks
- Announce launch on social media
- Timeline: 1 day

Step 7: Ongoing Partnership

- Monthly maintenance begins
- SEO work commences
- Regular reporting
- Continuous improvement

Frequently Asked Questions

Q: Why is ongoing maintenance necessary?

A: Websites need regular updates for security, compatibility, and performance. Without maintenance, websites break, get hacked, or become slow. It's like maintaining a vehicle - regular service prevents major problems.

Q: Can I do maintenance myself?

A: Basic content updates can be done by you with training. However, technical updates (security patches, code updates, server management) require developer expertise. Most organizations find outsourcing more cost-effective than hiring technical staff.

Q: What if I only want hosting without maintenance?

A: This is possible but not recommended. A hosted website without maintenance will eventually have security vulnerabilities, broken features, or outdated content. Minimum recommended: quarterly maintenance checks (KES 15,000 per quarter).

Q: How long until I see SEO results?

A: SEO is a marathon, not a sprint. Expect:

- Month 1-3: Foundation building, minimal visible results
- Month 3-6: First ranking improvements, small traffic increase
- Month 6-12: Significant improvements, steady traffic growth
- Year 2+: Strong rankings, consistent traffic, best ROI

Q: What happens if I stop paying for maintenance?

A: Your website continues to work as-is. However:

- No security updates (vulnerability risk)
- No bug fixes
- No content updates
- No technical support
- SEO work stops (rankings may drop)
- You can restart service anytime

Q: Can another developer take over later?

A: Yes! Your website uses standard technology. Any competent web developer can maintain it. I provide full documentation and source code. However, there will be a learning curve for new developers (2-4 weeks typically).

Q: Do you offer training for my team?

A: Yes! Initial handoff includes 1-2 hours of training for basic updates:

- Changing text
- Uploading images
- Adding documents
- Updating team profiles Additional training: KES 5,000 per 2-hour session

Q: What if I need a feature that's not included?

A: New features are quoted separately based on complexity:

- Simple features: KES 10,000 - 30,000
- Medium features: KES 30,000 - 80,000
- Complex features: KES 80,000 - 200,000+ Examples: Blog system, member portal, event registration, online courses, etc.

Q: Can I switch to a cheaper developer for maintenance?

A: Yes, you own the website. However, consider:

- New developer needs learning time (billed to you)
- Quality may vary
- Relationship and understanding already established
- Current pricing is competitive for Kenya market

Q: What about hosting costs as traffic grows?

A: Current free hosting tier supports:

- Up to 10,000 visitors per month
- Up to 100GB bandwidth If you exceed this (great problem to have!), paid hosting costs KES 2,000-5,000/month for significantly higher capacity.

Investment Summary

One-Time Development Fee

Item	Cost
Website Development (10 pages)	KES 180,000
<i>Or with 5% early payment discount</i>	<i>KES 171,000</i>

Monthly Recurring Costs

Service	Monthly	Quarterly	Annually
Maintenance & SEO	KES 18,000	KES 51,300	KES 183,600
Effective Monthly Cost	KES 18,000	KES 17,100	KES 15,300
Savings vs Monthly	-	5%	15% ★

Additional Annual Costs

Item	Cost
Domain Name	KES 2,500/year
Hosting (if needed beyond free tier)	KES 0 - 60,000/year
Estimated Total	KES 2,500 - 30,000/year

Total First Year Investment

Payment Structure	Year 1 Cost
Development + Monthly Maintenance	KES 396,000
Development + Quarterly Maintenance	KES 385,200
Development + Annual Maintenance ★	KES 363,600

Plus infrastructure costs (KES 2,500 - 30,000)

Best Value: Annual maintenance plan saves KES 32,400 in Year 1

Why Choose This Investment?

Return on Investment

What You Get:

- Professional online presence worth KES 500,000+ (agency pricing)
- Donation platform reaching global supporters
- Recruitment system saving time and improving quality
- 24/7 accessible information for beneficiaries
- SEO bringing free, ongoing traffic
- Credibility with donors, partners, and government

Comparable Costs:

- Hiring full-time web developer: KES 60,000 - 150,000/month
- Hiring part-time technical staff: KES 30,000 - 80,000/month
- International agency website: KES 500,000 - 2,000,000
- Facebook/Instagram ads: KES 20,000 - 100,000/month ongoing

Your Investment:

- One-time development: KES 180,000
- Ongoing support: KES 15,300 - 18,000/month
- Much more affordable than alternatives
- Ownership and control remain with you

Long-Term Value

Year 1:

- Professional website launched
- Foundation for growth established
- Initial SEO traction
- Donation system active
- Cost: KES 363,600 - 396,000

Year 2:

- Strong SEO rankings
- Steady organic traffic (500-1,000+ visitors/month)
- Increased donations from online sources
- Established online presence
- Cost: KES 183,600 - 216,000 (maintenance only)

Year 3+:

- Top rankings for key terms
- 1,000-2,000+ visitors/month
- Significant donations from search traffic
- Known as leading workers' rights NGO online
- Cost: KES 183,600 - 216,000/year (maintenance only)

Testimonials & Credibility

Technology Used by Major Organizations

Next.js (Your Website's Technology):

- Netflix - Video streaming
- Nike - E-commerce
- TikTok - Social media
- Twitch - Live streaming
- Notion - Productivity
- Uber - Transportation

Your NGO is built with enterprise-grade technology.

Kenya Web Development Market (2025)

According to Kenya Web Developers Association:

- Average website project: KES 50,000 - 300,000
- Average monthly maintenance: KES 10,000 - 25,000
- Your pricing: Competitive and fair for delivered value
