

WEBSITE & SOCIAL MEDIA HANDOVER AGREEMENT

Workers' Rights Watch

Subject: Website Handover, Login Credentials Transfer, and Staff Guidance

Primary Focus: This agreement primarily covers the handover of **website production credentials** (Vercel, GitHub, and related access). Social media accounts were previously transferred and are included here for completeness.

Agreement Date: _____, 2025

PARTIES TO THIS AGREEMENT

WEBSITE DEVELOPER:

Enock Kibe Ngunyi

Phone: 0735663656

Email: kibeenock7390@gmail.com

RECEIVING ORGANIZATION:

Workers' Rights Watch

Contact: Mrs. Eunice Waweru (Executive Director)

Secondary Contact: Cynthia Akomo (Programs Officer)

Email: info@workersrightswatch.org

1. TRANSFER OF WEBSITE LOGIN CREDENTIALS

The Developer will provide the following login credentials:

After Payment 1 (KES 30,000):

- ☒ Vercel Hosting Platform Account - Dashboard access for website monitoring
- ☒ Website URL: www.workersrightswatch.org (live and accessible)

After Payment 2 - Full Payment (KES 60,000):

- ☒ GitHub Repository Access - Complete source code and code backup
- ☒ Full Vercel Account Access - Complete administrative control
- ☒ Google Analytics Access - Website traffic monitoring (if applicable)
- ☒ All Documentation - Complete technical documentation

Note: Domain Registrar, Email Hosting, and previous WordPress/cPanel credentials remain with Workers' Rights Watch as previously established.

2. SOCIAL MEDIA PLATFORMS

Status: All social media accounts were created and transferred to Workers' Rights Watch on **February 18, 2025**. Cynthia Akomo (Programs Officer) has full administrative rights and has been successfully publishing content on X (Twitter), Facebook, Instagram, YouTube, and LinkedIn since then.

Social Media Accounts:

- Facebook Page
- Instagram Account
- YouTube Channel
- X (formerly Twitter) Account
- LinkedIn Account

Note: The main focus of this handover agreement is the **website credentials** (Section 1). For social media, the Client has the following option:

Option A - Recommended: Developer maintains 2FA backup codes as security consultant

- Developer keeps 2FA backup codes for security protection
- If any security issues or vulnerabilities arise, Developer can be consulted to assist and fix problems
- Developer acts as a security consultant, not as account administrator
- This ensures continued security support and quick resolution of any issues
- All content management and publishing remains with Workers' Rights Watch staff

Option B: Full handover of 2FA codes

- Developer provides all 2FA backup codes to Workers' Rights Watch
- Complete removal of Developer from social media security
- Client assumes full responsibility for all security matters

Client's Choice: Please indicate your preference (Option A or Option B) when signing this agreement.

3. STAFF GUIDANCE & TRAINING

The Developer will provide guidance on:

Website Monitoring:

- How to access and navigate the Vercel dashboard
- Understanding website performance and status

Content Management:

- How to review contact form submissions
- How to access job and volunteer applications
- How to download CVs/resumes from applications

Content Updates:

- How to request content updates from the developer
- Process for uploading new images and documents (via code, not dashboard)
- How to communicate update requests

Note: The website is built with Next.js framework. Content updates (text changes, new images, new documents, new pages) require coding and will be handled by the developer. Staff can request updates via email or WhatsApp, and the developer will implement them.

4. ONGOING SUPPORT

The Developer will remain available for ongoing technical support and website updates. This ensures that the Programs Officer is not burdened with technical tasks, and all website matters are handled professionally.

Support Includes:

- Content updates and modifications
- Technical maintenance and bug fixes
- Security updates
- Performance optimization

Emergency Support:

- Emergency visits: KES 5,000 per visit (billed separately when needed)

5. CONFIDENTIALITY

Both Parties agree that all login credentials, data, and operational information shared as part of this handover are confidential and remain the property of Workers' Rights Watch. Such information shall not be shared with unauthorized persons outside of Workers' Rights Watch staff.

6. ACCEPTANCE & COMPLETION

Developer's Commitment

By signing below, the Developer confirms that:

- ☒ All requested login credentials will be provided
- ☒ Social media 2FA codes will be provided
- ☒ Staff guidance will be provided
- ☒ Developer will remain available for ongoing technical support

Client's Acceptance

By signing below, the Client confirms receipt and understanding of this handover agreement.

7. SIGNATURES

FOR WEBSITE DEVELOPER
